IN APPRECIATION

SCOTT REID

On behalf of the Executive of the Vancouver Island Woodworkers' Guild I wish to recognize the significant contribution Scott Reid has made many years. Scott tends to work in the background and has quietly been a significant contributor to the Guild's success. Specifically, Scott has consistently ensured the meeting room is ready to go for our General Meetings and stays late to orchestrate the clean up. This past year he willingly volunteered to be the custodian and administrator for our growing tool crib. It seems every time he is approached with a situation he comes up with a workable solution.

His willingness to take on responsibilities and solve problems has not gone unnoticed and this letter of appreciation is long past due.

Thank you, Scott.

Blair Matheson
President
